## Seeking Class Ring Donations for the 2024 Ring Melt

Is your class ring tucked away and never worn? Consider donating it to the NU Bonds of Gold legacy ring melt. Continuing the tradition launched in 2023, alumni or the family of deceased alumni are invited to donate their class rings back to the university. Rings will be melted down in a ceremony on Homecoming Weekend. The gold will be incorporated in the rings forged for the next junior class, thus creating a 'bond of gold'. This process will continue in perpetuity, linking ring donors with generations that will follow in their footsteps.

### Upcoming Certificate – Exorcising Hitler’s Ghost: The Holocaust, Denial, & the Importance of History

The Holocaust remains one of the darkest chapters in human history. For historians, it has also become a target for lies, invention, and distortion from various malicious sources who have challenged its very existence. This course, "Exorcising Hitler's Ghost," will review the development of the Holocaust and the rise of Holocaust Denial. Our goals are two-fold. First, understand how and why historians have verified the reality and dynamics of the Nazi "final solution" and extermination plans for the Jews of Europe and other targets. Second, we

deconstruct how and why people deny the Holocaust and how they have profited from these distortions. By the end of this course, students will learn about the origins of the Holocaust and major debates surrounding its creation, the development of the Nazi extermination policies from words to deeds in war and peace, the emergence of Holocaust Denial as a post-war phenomenon, and how historians can challenge Holocaust denial with historical methods, evidence, and argument.
